PlanNext, Inc.

GOVERNMENT CAPABILITY STATEMENT

Mission-Ready Strategy, Workforce & Responsible AI Support

Senior-led management consulting, workforce modernization, responsible AI strategy, governance, and training.

CORE CAPABILITIES

Management & Organizational Consulting

Strategic planning, organizational assessments, process improvement, performance management, policy and procedure development, and implementation support.

Responsible AI Strategy & Governance

Nontechnical AI readiness, use-case prioritization, responsible-use frameworks, governance, human oversight, workforce impact, workflow modernization, and adoption roadmaps.

Workforce Development & Modernization

Workforce strategy, capability assessments, career pathways, employer engagement, AI and digital literacy, skills development, and workforce redesign.

Program & Project Support

Program planning, stakeholder engagement, coordination, documentation, performance reporting, evaluation, implementation tracking, and continuous improvement.

Higher Education & Student Success

Student affairs, enrollment and retention, career readiness, workforce alignment, administrative modernization, and compliance-related operations.

AI, Digital Skills & Executive Training

Generative AI and digital skills training, AI literacy, responsible-use workshops, executive briefings, customized curricula, facilitated planning, and leadership development.

CONTRACTABLE DELIVERABLES

- AI readiness, governance, and workforce impact assessments
- Current-state, gap, and opportunity analyses
- Strategic plans and implementation roadmaps
- Workforce development strategies and curricula
- Policy, procedure, workflow, and SOP recommendations
- KPI frameworks, dashboards, and executive reports
- Customized AI and digital skills training materials
- Program evaluations and continuous-improvement plans

REPRESENTATIVE KEY PERSONNEL EXPERIENCE

Executive leadership experience across higher education, student affairs, enrollment management, workforce systems, Title IX and compliance operations, organizational leadership, public service, and responsible AI strategy. Corporate references and relevant experience are available upon request.

DIFFERENTIATORS

- Senior-led delivery with direct accountability.
- Cross-sector expertise spanning government, higher education, workforce, nonprofit, and business.
- Responsible AI expertise focused on strategy, governance, workforce readiness, adoption, and training.
- Implementation-focused recommendations translated into roadmaps, responsibilities, timelines, and measurable outcomes.
